COVID-19 Research Bulletin

February 9, 2021

Research Safety Guidance

The latest and most up-to-date safety guidance is posted to the Division of Research and Innovation coronavirus updates page. This criteria applies to in-person research, scholarship, community service and creative activities at all SDSU, SDSURF, and field research sites. Please review the criteria and make sure your project is in compliance.

CSUPERB COVID-19 Research Recovery Microgrant Program

CSUPERB has a microgrant program (up to \$1,500 per grant) for tenured/tenure-track CSU faculty who have suffered losses to their CSU based research projects as a direct result of the halting of research activities due to the COVID-19 pandemic.

[CSUPERB open call for proposals.](#)

Ensure Testing Compliance

All student researchers must be tested for COVID-19 every other week. Research leaders must check WebPortal to ensure students have received university clearance prior to each work shift. You must be logged into your SDSU account to view the instructions.

[Instructions on how to check student testing status.](#)

Report COVID-19 Cases

If you or someone involved in your project has tested positive for COVID-19, you must ensure the university is informed.

Ask the individual to fill out SDSU's reporting form. To ensure reporting is completed and Student Health Services is aware, the research leader must also submit this form. If the individual is an SDSU Research Foundation employee, they should also complete the COVID-19 Reporting Form for SDSURF Employees. The affected employee must also immediately stop participating in research.
