UNIVERSITY

Division of Research and Innovation

## COVID-19 Research Bulletin

### March 09, 2021

### Research Town Hall this Friday

Mark your calendars for Friday, March 12 at 3 p.m. The Division of Research and Innovation is holding its second town hall of the spring semester to discuss COVID-19 updates and research related issues and opportunities.

[Town Hall Zoom link](#)

---

### Vaccine Eligibility

All SDSU and SDSU Research Foundation faculty and staff, and all current student employees, are now eligible to be vaccinated in San Diego County.

[SDSU COVID-19 testing and vaccine programs](#)

---

### Research Safety Guidance

The Division of Research and Innovation is in the midst of updating its safety guidance for research and related activities during COVID-19, and will discuss potential changes at the upcoming Research Town Hall. The latest and most up-to-date guidance is posted to the coronavirus updates page. This criteria applies to in-person research, scholarship, community service and creative activities at all SDSU, SDSURF, and field research sites.

[Review current safety guidance](#)

---

## Research Repopulation Requests

There is now an easy one-stop process for research repopulation requests related to changes in personnel.

The new OnBase form streamlines the application process by auto-filling key information about personnel; simplifies the review process by auto-routing to reviewers; sends automated responses to applicants about the approval process; and shares information with the COVID-19 testing database to ensure that all students are enrolled in the required testing every 14 days.

[How to access and use OnBase forms](#)

---

## Ensure Testing Compliance

All student researchers must be tested for COVID-19 every other week. Research leaders must check WebPortal to ensure students have received university clearance prior to each work shift. You must be logged into your SDSU account to view the instructions.

[Instructions on how to check student testing status.](#)

---

## Report COVID-19 Cases

If you or someone involved in your project has tested positive for COVID-19, you must ensure the university is informed.

Ask the individual to fill out SDSU's reporting form. To ensure reporting is completed and Student Health Services is aware, the research leader must also submit this form. If the individual is an SDSU Research Foundation employee, they should also complete the

COVID-19 Reporting Form for SDSURF Employees. The affected employee must also immediately stop participating in research.
