2024 SURP-match student application

The SDSU Undergraduate Research Program (SURP) supports student participation in undergraduate research, scholarship, and creative activities (RSCA) through high impact practices. This program is open to undergraduate students enrolled in a degree-seeking program at SDSU (with a graduation date after December 2024). You can find more information about the program, timeline, and expectations on the [SURP website](#).

The SURP-match is intended to help pair undergraduate students interested in working on a RSCA project with faculty members looking for student assistants.

If you do not currently have a mentor, please complete this application for SURP-match to be considered by mentors for the 2024 SURP. If you already have a mentor, who has submitted an application with you in mind, you do not need to complete this application.

Please note that there are two tracks (20- and 10-week). Projects seeking student assistants will be posted the week of December 18, 2023 for the 20-week program and the week of February 19, 2024 for the 10-week program. Information about available projects will be listed on the [2024 SURP-match projects](#). Only one application is accepted per SDSU student and you must use your SDSU email address.
Please contact Dr. Alicia Kinoshita, Director of Undergraduate Research and Creative Activities (dri-undergradresearch@sdsu.edu), if you have questions or would like additional information.

The name, email, and photo associated with your Google account will be recorded when you upload files and submit this form
